Gardenscapes with an Architectural Component

Use colour with daring confidence in a fast and fresh approach to painting a garden setting with an architectural element. Incorporate a garden bench, doorway or a summer porch while capturing the beauty and grandeur of flowers, trees and shrubs. The emphasis will be on design strategies of line, shape, value and colour. to bring more excitement and emotional content to your painting. I will be working in acrylic on canvas, but you are welcome to work in watercolour if you prefer.
